

THE BLACK LIST

2025

"While you're living, dealing with other human beings, people whom you love, all you can do is have passion. The bottom line is this: You write in order to change the world, knowing perfectly well that you probably can't, but also knowing that literature is indispensable to the world. In some way, your aspirations and concern for a single man in fact do begin to change the world. The world changes according to the way people see it, and if you alter, even by a millimeter, the way a person looks or people look at reality, then you can change it."

James Baldwin

"Words are sacred. They deserve respect. If you get the right ones in the right order, you can nudge the world a little."

Tom Stoppard

The Black List was compiled from the suggestions of nearly 500 film executives, each of whom contributed the names of up to ten of their favorite feature film screenplays that were written in, or are somehow uniquely associated with, 2025 and will not have begun principal photography during this calendar year.

This year, scripts had to receive at least **10** mentions to be included on The Black List.

It has been said many times, but it's worth repeating: The Black List is not a "best of" list. It is, at best, a "most liked" list.

All reasonable effort has been made to confirm the information contained herein. The Black List apologizes for all misspellings, misattributions, incorrect representation identification, and questionable 2025 affiliations.

BEST SELLER

Matisse Haddad

In New York's literary scene, a struggling writer, pressured by her famous novelist husband to have a baby, pens a tell-all article that goes viral. This sparks a dangerous battle of seduction, manipulation, and betrayal in the public and private spheres.
